

SHOWPIPE

TECHNICAL DATA SHEET

March 2018

The ShowPipe is a sturdier, aluminum version of the H100 track.

» TRACK DIMENSIONS (MM)

Track weight	1.31 kg/m	
Track section max length	6 m	
Curved track min radius	0.45 m	

» SPECIFICATIONS

ShowPipe is a black anodized extruded aluminum track based on the geometry of the H100. It was designed to slide into our 50 mm alumimun construction tubes. The rails are anodized.

Rails are available in straight lengths or corners of customizable radii. Couplers are available to couple straight as well as curved rails.

Mounting of the profile can be done with any channel nut or bolt that matches the size of the top channel.

A ShowPipe system can be operated:

- · Manually: walking along the track or through rope-operation,
- Or automatically: through rope operation with the RTD series motors.

Different types of runners are available to answer a broad range of possible needs, including ball raced runners, scenery carriers, master carriers with brakes and overlap carriers.

» LOAD CAPACITY TRACK

L (m)	Point load (kg)		
1	135 kg		
2	68 kg		
3	49 kg		

L (m)	Uniformly distributed load (kg/m) • total resulting load (kg)
1	210 kg/m • 210 kg
2	60 kg/m • 120 kg
3	30 kg/m ∙ 90 kg

The stated load capacities apply to the rail only. The load bearing capacity of the carrying construction (ceiling/truss/...) and all individual mounting accessories must be taken into account as well.

Load capacities have been calculated using Safety Factor 2. Apply the required Safety factor according to the standards pertaining to your application.

» TRACK DIMENSIONS ACCORDING TO CURTAIN SIZE (MM)

* standard distance for grommet

» RUNNER INFORMATION

Name	Article code	SWL	MIN. RADIUS OF BENDED RAIL
Ball raced runner	8050 0205 0087	8 kg	450 mm
Master carrier	8050 0221 0167	15 kg	450 mm
Scenery carrier	8050 0230 0302	60 kg	450 mm
Master carrier with brake	8050 0221 0197	15 kg	450 mm
Short overlap carrier	8050 0245 0057	15 kg	450 mm
Long overlap carrier set	8050 0246 0167	15 kg	2000 mm
Master carrier for motor control	8050 0228 0167	15 kg	n.a.
Short overlap carrier for motor control	8050 0245 1057	15 kg	n.a.
Long overlap carrier set for motor control	8050 0246 1167	15 kg	n.a.

ASSEMBLIES

WALK-ALONG OPERATION

This is the most basic installation of the ShowPipe system. The curtain is pulled along the rail to its required position. Optional braked master carriers make manual positioning more accurate.

This configuration offers the possibility to automatically control the curtains from any place with a remote module or through DMX. Two fixed positions are possible and, depending on the motor, variable speed control is also provided. Different overlap carriers ensure perfect closure of curtains of any size. For larger curtains, double rails can be placed with a custom overlap, while operation with one motor remains possible.

Motor operation is only available for straight tracks!
